

PHILANTHROPY [fi-lan-thruh-pee]

Most peoples' definition of philanthropists are the big names in business or entertainment like Bill and Clare Gates, Paul Newman or Ricky Martin. But each one of us can earn a place in the list. It can be a simple process. We can work through our various companies and networks to secure the smallest donations that will make a big difference to children and families in our real world on a local level.

In our real world is Broward Children's Center. www.bcckids.org, The Center and its affiliates specialize in helping infants, children, and young adults with special health care needs. Founded in 1971, the nonprofit facilities in Pompano Beach, Florida, offer a range of health, wellness, education, recreation, therapeutic, daily living and advocacy services. During more than four decades of service thousands of children and their families have benefited from the Center's programs. Broward Children's Center and its affiliates specialize in helping infants, children, and young adults with special health care needs. Broward Children's Center provides a home to some of the most technologically-dependent children in the country and addresses the educational, social and medical needs of both typically developing and special needs children. The needs of these children have led the Center to pioneer the development of community-based residential facilities and school programming for children who are medically fragile and/or developmentally delayed.

H3Design is working with the Broward Children's Center to renovate their facility to provide the children with better quality of living, but the budget is tight. They have many simple requirements listed on their web page, please visit: <http://bcckids.org/ways-to-help/wish-list>. H3Design is specifically looking to our Vendors and Suppliers to help with the donation of furniture and finish materials.

"We know there are big hearts out there, and the opportunity to make a real difference is here and now."

FROM THE PRESIDENT

H3Design is truly honored to be working with Broward Children's Center on this important and life enriching project. H3Design is assisting BCC with the design of their small (3,000 SF) but much needed expansion by specifying materials and products that stand up to the wear and tear required in any health care environment. This is where you: my friends, colleagues and vendors can help and REALLY make a difference- A selfless act that will change the lives of these wonderful children. We are looking for donations of furniture and finish materials to help make this happen.

Broward Children's Center is a 501(c)(3) charity and all donations or inkind contributions are tax deductible.

Please contact us to assist you with your donation efforts.

Diana Castro, ASID, IIDA, LEED A.P.
 President of H3Design
